

ODP-9-434

15 MAR 1979

Ms. Helen B. McEwan
Software Exchange Program Director
Automated Data and Telecommunications
Service
General Services Administration
Washington, D.C. 20405

Dear Ms. McEwan:

You indicated in your February 27th letter that the Software Exchange Program (SEP) was established for the reutilization of available software in the belief that significant cost avoidance would be achieved by Federal, State, and local government activities. You also asked for assistance in computing the cost avoidance of the program, FSWEC 78/129 entitled Cartographic Automated Mapping (CAM), which we submitted to the Federal Software Exchange Center (FSEC).

The program CAM has been under development, refinement, and enhancement during the past twelve years and we estimate the cost to develop it to its present state, including programmer/analyst time and computer time used for testing, to be one million dollars.

Should you have any questions concerning the above, please contact me on 351-4011.

Sincerely,

Chief, Management Staff
Office of Data Processing
CIA Representative for
FSEC
